

dance lessons

All eyes will be on you, so make your first dance truly memorable by taking professional lessons prior to your wedding day. From a simple slow dance without two left feet to a fun and energetic choreographed number that will wow your guests, anyone can learn with the help of a dance studio. You might not go viral on YouTube, but your guests will indeed be entertained. Make every effort to impress with a pre-planned, choreographed dance number with mom, dad, or the entire wedding party. This can be a fun gift for those celebrating the night of your life!

WHAT TO KNOW AND ASK

- Connect with a dance studio for an introductory lesson and find out the time commitment involved to learn dance routines desired.
- What special dances do you want and with whom, and when and where will they be performed?
